

Fifth facade

M=1:1000

10M

The main view is the big structural creation of the stage's roof which should be visible (even intrusive) and is highlighted from the remaining part of the location and the city at the same time. It should be a representative object, one spot which will attract towards the cultural raising and different experiences.

This surface which is pretty tall to be used for advertising by using the modern technology of projecting on facade surfaces.
