

BEIRUT ECOLOGICAL PARK

⚠️ Please stay on designated paths.
 Do not climb on or throw items into habitats.
 Do not feed the animals. The ecosystem of the park is managed into a sustainable balance, which may be destroyed by extra feeding.
 The activity areas of animals are not guaranteed. We provide an open and free ecological environment for animals. However, it is more likely to observe the activities of animals near the center of the park, based on the species and planting density of the vegetation, and the accessibility of fresh water.
 Please return the shared bike to parking points marked on the map after use.

♻️ Recycle bins are located throughout the park to recycle your plastics, aluminum and paper.

♿️ Accessibility information is available at "Plan Your Visit" at beirutecologicalpark.org

🚭 The Beirut Ecological Park is a smoke-free facility, including electronic cigarettes.
