

COLLABORATIVE

SEARCHING THE FOURTH WAY OF CONSCIOUSNESS

Sprouted through thick and thin,
I am a body, who caused no sin.

But still cursed by earthing,
Who never stop searching,
For a life with meaning.

I was made with no plan,
And no heart of itself,
But mind was kind,
To provide man, with all the grind.

Image as I am, more than
personage,
Gazing upon the earthlings,
Who live like renegade,
For providing my cells,
With an instrument,
To be **collaborative**
And **intimate**.

That instrument, beyond the
conscious,
Is the fourth way of **spiritualness**,
Fourth way of **one man-ness**,
And fourth way of **motion-ness**.

Dear you,
I give this instrument,
Play with it,
In our spaces
And grandstand among other cells,
Portraying the real essence,
Present within ourselves,
Temporally.

CITY:

Gurgaon, Haryana
(India)

PROBLEM:

"Gurgaon is a paradigm for the new Indian city: entirely privatised with no public space, managed by a few companies which cater to the needs of the middle class. It's an image as much as a place"

- ARTHUR CRESTANI
(French Photographer)

FUTURE VISION:

Temporality And
Collaborativeness

TUCKMAN MODEL

4 STAGES OF COLLABORATION

Incorporated in Programs

1

FORMING

building relationships; encouraging the purpose and expectations; Orientation stage of being collaborative

2

STORMING

Expected to push out the boundaries; introduction to core thought of collaborativeness; Further after this stage, people may divide or may stay together on the basis of their respective conjectures.

3

NORMING

But either way, no matter they stay introvert, extrovert or ambivert, they remain **susceptible** to the idea of collaborativeness, encouraging them to bring more people together and encourage them in their work and thus increase their efficiency and creativity.

4

PERFORMING

Once the users pass the above stages, they are expected to execute and achieve high level of **CONSENSIVENESS** leading to a better living environment for one and all
