

Global context - continent of Europe

Map of Kosovo

City of Ferizaj

1 Site and Context

2 Entrances, Access Points from roads to location

3 Volumes, Extrude

4 Concept. The building is concentrated and derives from a main centric point gradually increasing same way as blossoms, generating undulated forms, creating a visual flow of movement

BIOPHILIC/HEDONISTIC SYSTEMS USED IN THE PROJECT PROPOSAL

- open public spaces for pedestrians only as main hybrid points of the project
- the centric atrium that is wrapped by the spiral ramps that flow along the landscape of the project
- green and ecological areas - connecting the external and the internal parts of the project

Natural Qualities integrated within studio project
