

**CONCEPT**

The main goal is to achieve **balance** between built and unbuilt areas in town, and to enable enough green and recreation spaces in order to support good **health** and quality life.

The concept of the project is a network of **green corridors** which continues routes and paths from the western part of Beirut and the existing landscaped promenade, next to the zone of New Beirut and the passenger terminal of the Port of Beirut, stretching through the port.

The goal is to activate the renamed land of the port and integrate it with the rest of the city. The new corridors extend through several zones that will mostly condition the names and give character to the corridor segments.

**SUSTAINABLE URBAN MOBILITY**  
Introduction of pedestrian and bicycle paths

**NEW CENTER**  
Interpolation in the port zone  
Memorial center and accompanying facilities

**GREEN CORRIDORS**  
A network of corridors that bring nature and freshness and enable safe movement of pedestrians and cyclists

**URBAN AGRICULTURE**  
Urban gardens and implementation of green infrastructure in areas that require urban revitalization

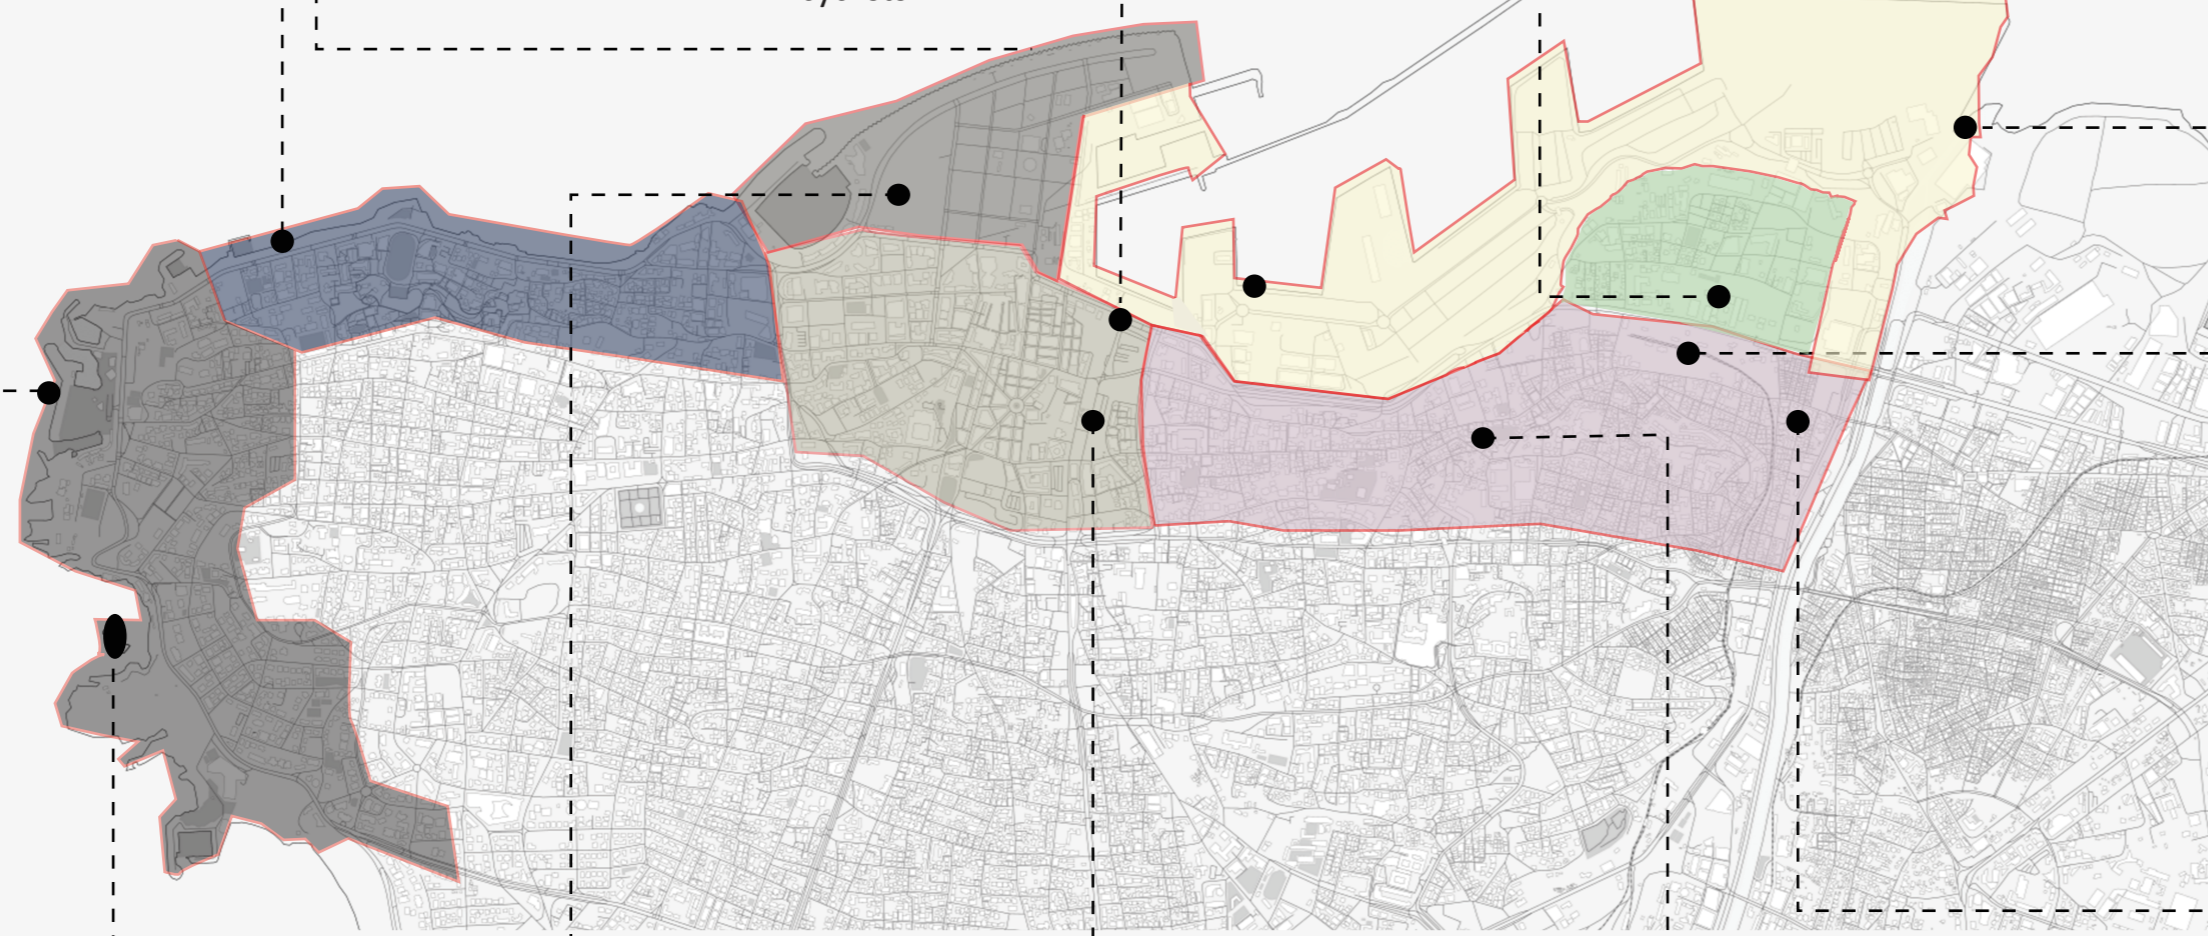

**COAST AND ROCKS**  
Landscaping of the coast in order to use the space as a recreational public purpose, which through urban recycling become tourist attractions

**COAST**  
Landscaping of the coast in order to use the space as a recreational public purpose, which through urban recycling become tourist attractions

**ROCKS**  
Landscaping of the coast in order to use the space for recreational public purposes, which through urban recycling become tourist attractions

**GREEN CORRIDORS**  
A network of corridors that bring nature and freshness and enable safe movement of pedestrians and cyclists

**CENTRAL PARK**  
Implementation of green infrastructure in the central city center

**SUSTAINABLE URBAN MOBILITY**  
New pedestrian and bicycle paths

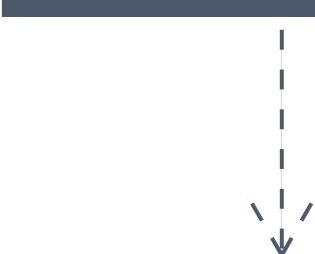

**RIVER REHABILITATION**  
Revival of the Beirut River as a long-term goal, continuity of content development and quality of life in the city

**URBAN RECYCLING**  
Introducing new content that activates derelict spaces and supports creative economies

**KEY WORDS**

- GREEN NETWORK
- SUSTAINABLE MOBILITY
- URBAN AGRICULTURE
- CREATIVE ECONOMIES
- REVITALIZATION
- RECONSTRUCTION
- URBAN REGENERATION
- URBAN RECYCLING
- LAND MANAGEMENT
- MEMORIAL CENTRE

**VALUES**

ENVIRONMENT

RECREATION

BALANCE

HERITAGE

ATTRACTION

SUSTAINABILITY

SEA SHORE

LIVING STREET

HEALTH

**GOALS**

CREATING A NETWORK OF GREEN CORRIDORS

REMOVING PHYSICAL AND VISUAL BARRIERS

PROTECTION AND RESTAURATION

CONNECTION AND CREATION OF NEW PUBLIC SPACES

QUALITY ENVIRONMENT

PROMOTE AND IMPLEMENT SUSTAINABLE MOBILITY

CONNECTING PEDESTRIAN AREAS AND PROMENADE

USE OF RENEWABLE ENERGY SOURCES

ENABLE THE SHORTEST TRAVEL FOR TRANSPORT TRAFFIC

**SUSTAINABLE DEVELOPEMENT GOALS**

**GREEN INFRASTRUCTURE**  
Bioretention/Rain Gardens  
Sidewalk trees and tree boxes  
Flood Detention Greenways

**URBAN AGRICULTURE**  
Green roofs  
Vertical farming  
Urban gardens
