## Living room design

The living room is a place where not only the whole family is gathering, but also guests.

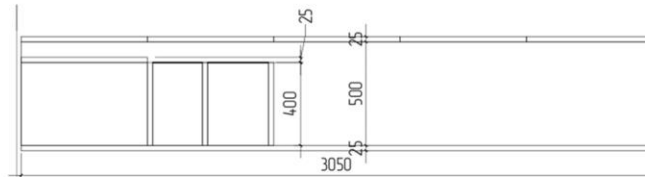

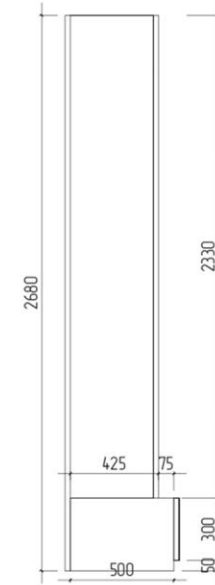

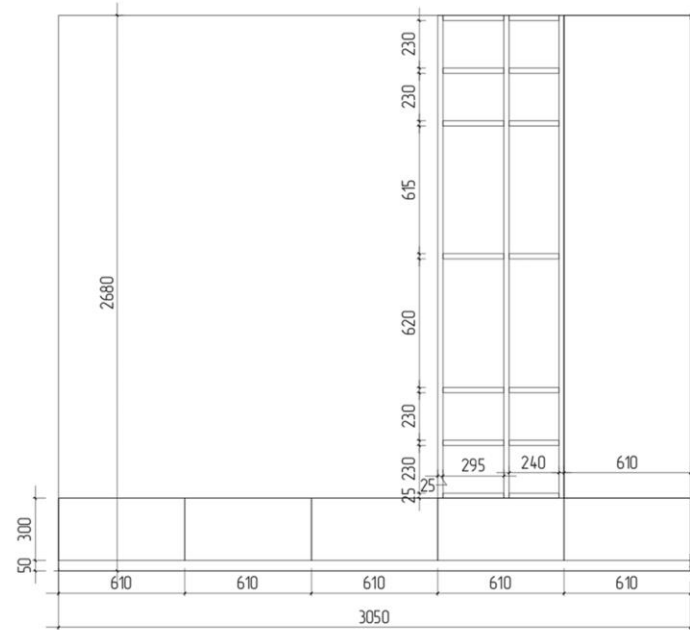

Much attention in the living room is paid to laconic neutral decoration and stylish decor. Wallpaper with a geometric print, plaster imitating different surfaces has become an excellent background for other elements.

The style does not imply a large amount of decor: soft blankets, wicker and textile rugs, roller curtains are appropriate here. To add bright spots, they bet on designer bright

# TV zone:

At the request of the customer, a TV zone was made to order. It was required to design a minimalist, but at the same time a multifunctional zone. Not catchy, but at the same time with accents. A large number of shelves and wardrobes for storage

Materials;  
Painted finely dispersed fraction  
small -dispersed fraction of the veneer  
of a tree

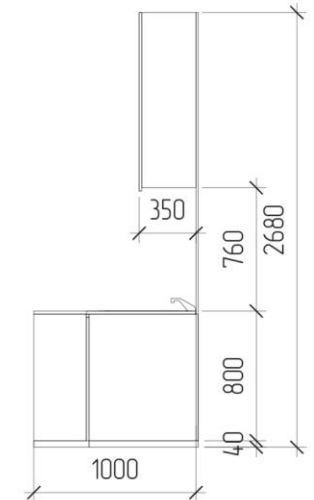

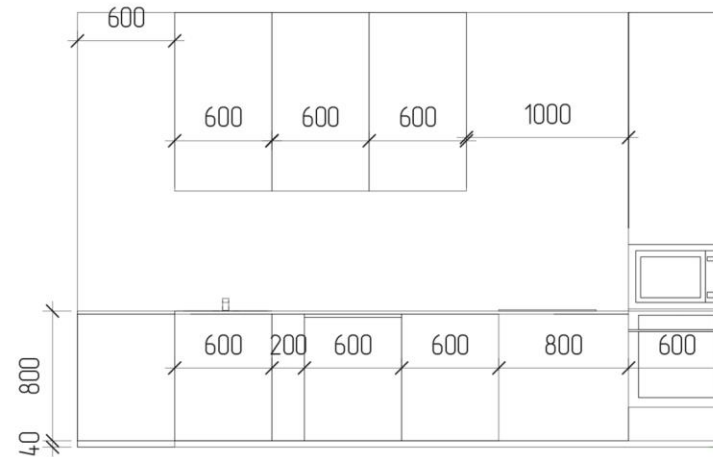

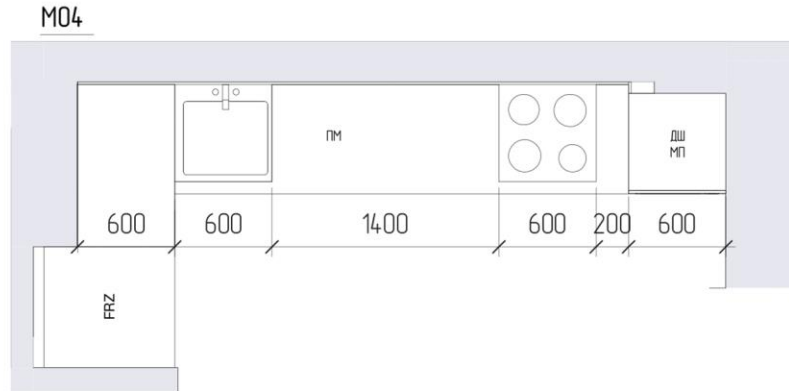

# ■ Kitchen design

# Kitchen:

The kitchen remains the heart and family. In the daytime, it is very light due to a large amount of daylight. This room is full of individuality and it supports the feeling of a family as soon as you enter the house. As for accessories, the kitchen is completely equipped.

Materials;  
Painted finely dispersed fraction  
Apron-trim with tiles  
Count of the stone

## Hallway design

The hallway is an important premises of any house on which several functions are assigned at once. Here they meet guests, dress and prepare for the street, store outerwear and shoes. Natural materials, natural textures and colors are used. They will fill the hallway with a living positive energy, add nobility and luxury. The furniture has strict lines, a holistic shape, a clear symmetry.

## Bed Room design
