FIRST FLOOR

THE JOURNEY - SPATIAL NARRATIVE

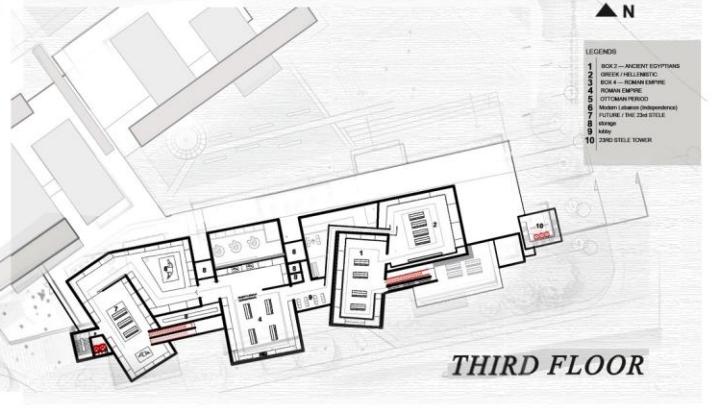

- 1. Arrival** - approaching the monumental wall.
Axonometric of the visitor (back to viewer) approaching the massive, engraved wall base. Red path leads towards the wall.
- 2. Compression** - moving through a narrow carved passage.
Spatial constriction heightens awareness of the carved rock as a physical boundary.
- 3. Transition** - encountering inscriptions and interior thickness of the wall.
The layered history of the site is revealed through detailed engravings within the wall's core.
- 4. Ascend** - vertical movement inside the wall through stairs or ramps.
Moving vertically, the internal volume of the massive structure is experienced.
- 5. Frame** - arrival at a large opening framing the river and cliff.
A calculated vista captures and focuses the iconic landscape, creating a moment of pause.
