

# MASTERPLAN

NOT TO SCALE

- BAMBOO PLANTATION**  
The site has a total of 20ha of bamboo plantation for **ecological, industrial, and recreational purposes.**
- SHUTTLE ROUTE**  
The site provides its own shuttle services to **transport visitors, staff, and trainees.**
- BIKE ROUTE**  
The site provides bike lane to **prioritize pedestrian access.**

## SITE PLANNING CONCEPT

The site will utilize an organic and clustered layout, where the buildings/structures are arranged in an interconnected clusters according to their specific functions. This planning layout will follow the natural topography of the site, given that it is in a hilly area.

## SITE BIODIVERSITY
