

AQUACLUB INTERIOR DESIGN "DUNE»

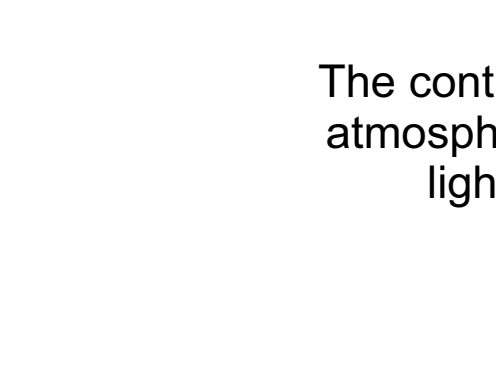

The aqua club's interior design project is inspired by the poetics of sand dunes and the sultry breath of the desert. This natural metaphor is embodied in soft, fluid forms and a warm, soothing colour palette. The composition is built around nuances of sand, terracotta and beige tones, complemented by striking light architecture: from fiery-red glows to cool blue shimmers that evoke images of mirages and oasis waters.

The contrast between warm and cool lighting creates a striking yet balanced atmosphere that promotes deep relaxation. The space seems to dissolve in light and silence, offering a sense of privacy, safety and complete rejuvenation.
