

BASEMENT

MARTIAL ART

Martial arts is an emerging youth practice that cultivates discipline, resilience, and self-awareness. It extends beyond sport, serving as a tool for shaping responsible citizens grounded in respect, control, and social awareness.

GYM

The local bakery celebrates Cypriot gastronomy, where bread making becomes a cultural ritual transmitted across generations. As a fundamental part of daily life, it sustains continuity between past and present, preserving culinary identity while remaining central to every household and cuisine.

RESEARCH HUB

The research and innovation center provides a platform for young people to engage with culture while exploring technological advancement and future-oriented thinking. It fosters experimentation, allowing users to question, test, and predict new ways of living at the intersection of heritage and innovation.

LOCAL BAKERY

The local bakery celebrates Cypriot gastronomy, where bread making becomes a cultural ritual transmitted across generations. As a fundamental part of daily life, it sustains continuity between past and present, preserving culinary identity while remaining central to every household and cuisine.

KAHVEHANE

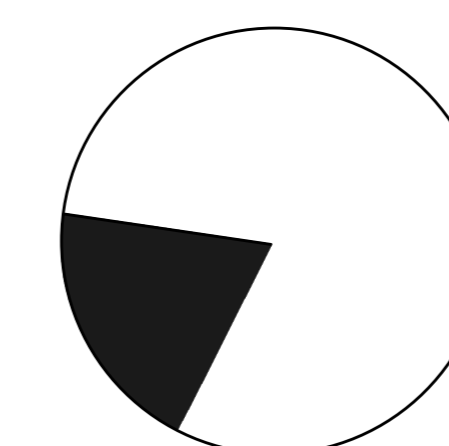

The kahvehane represents an enduring Cypriot social ritual, where informal gatherings around tea and coffee shops create spaces of dialogue and belonging. It is a living cultural practice that strengthens community ties through everyday interaction and shared presence in public life.

SOCIAL CONDENSER

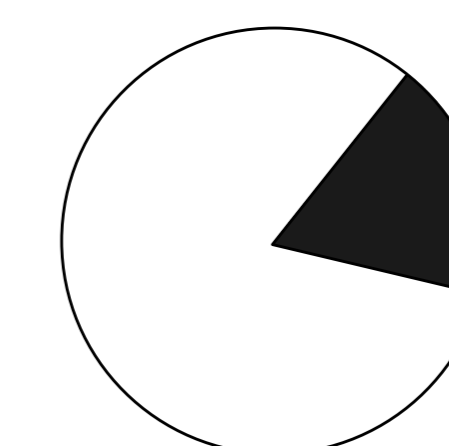

The social condenser is strategically located between research and bakery functions, forming a threshold where tradition and innovation meet. It operates as an informal meeting ground, fostering spontaneous interaction and social exchange across generations, and reinforcing the collective rhythm of the community.
