

CONCEPT STATEMENT
 The proposal introduces a landmark institution into the administrative core of Northern Nicosia. Synthesizing the historic layers of the city with contemporary civic programming, the design acts as an intellectual incubator. The form is generated through clear geometric shifts that address local urban nodes, creating an uninterrupted transition between the bustling urban fabric and the serene, contemplative environment of a national archive.

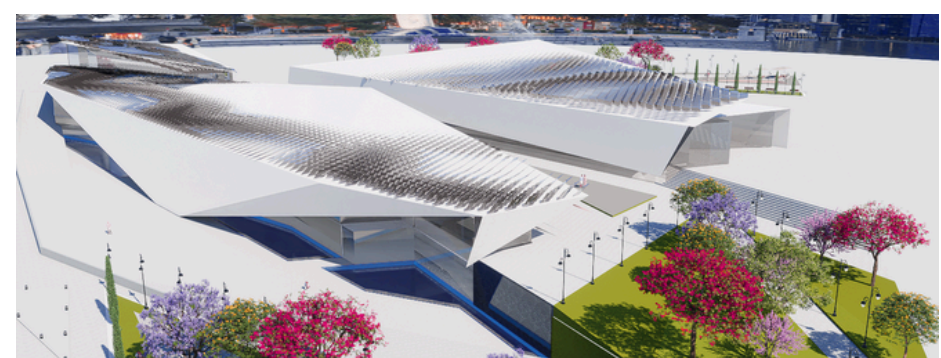

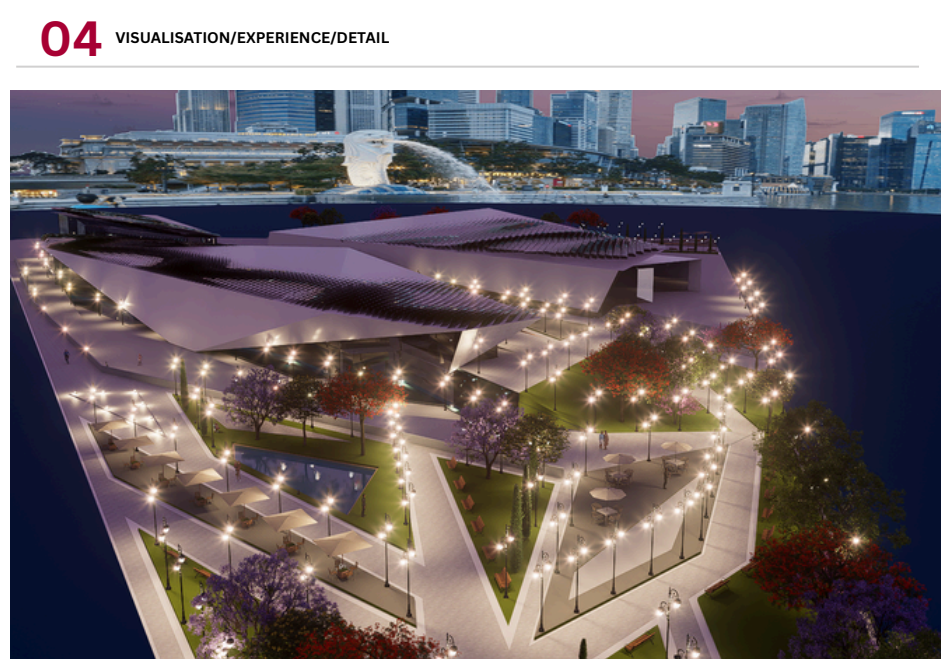

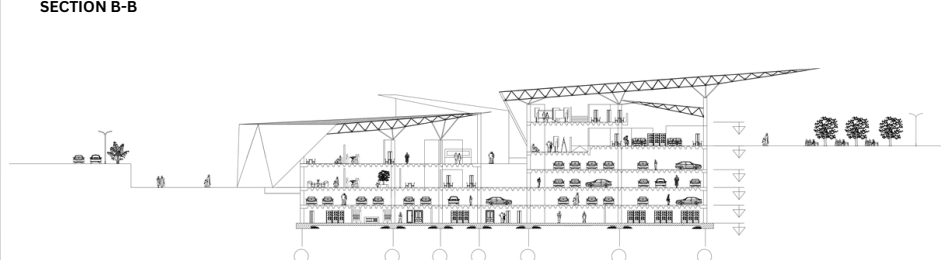

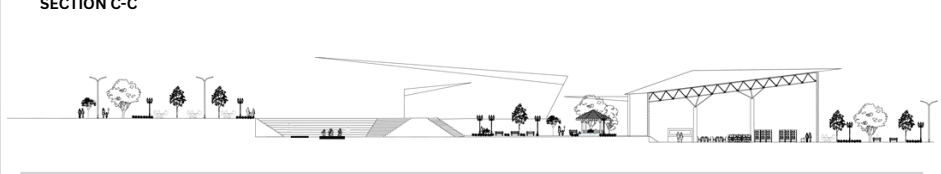

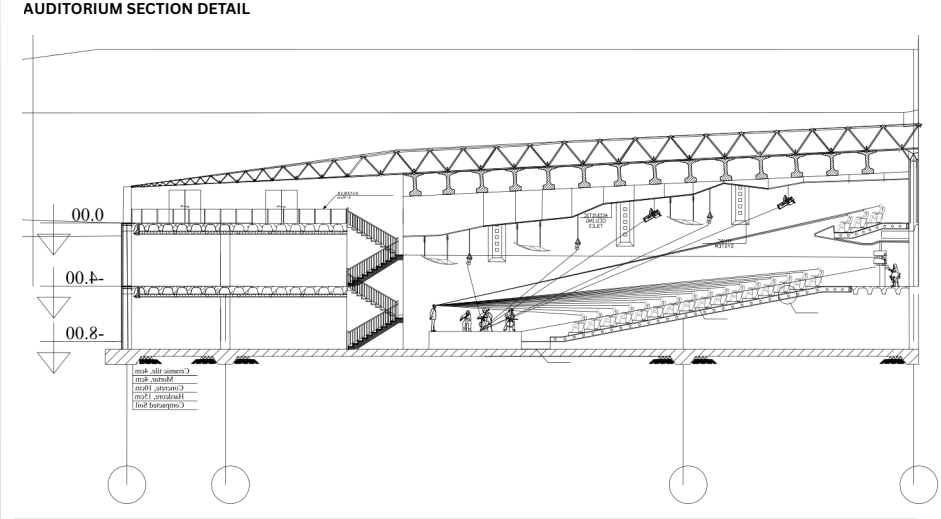

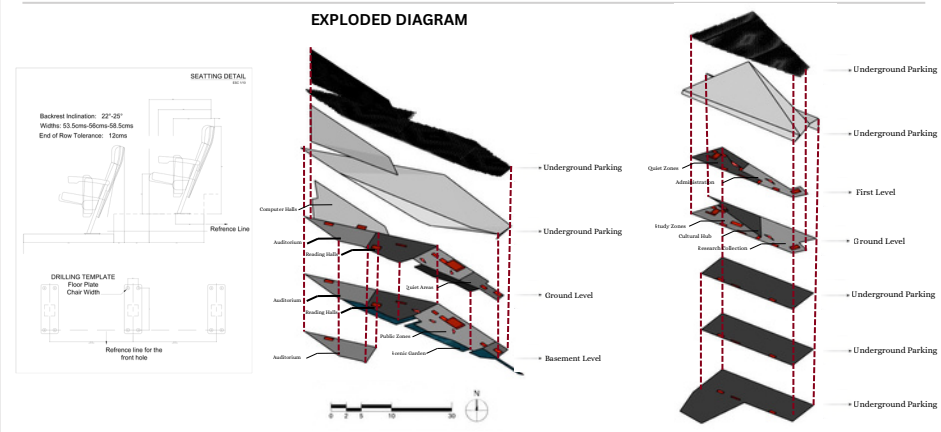

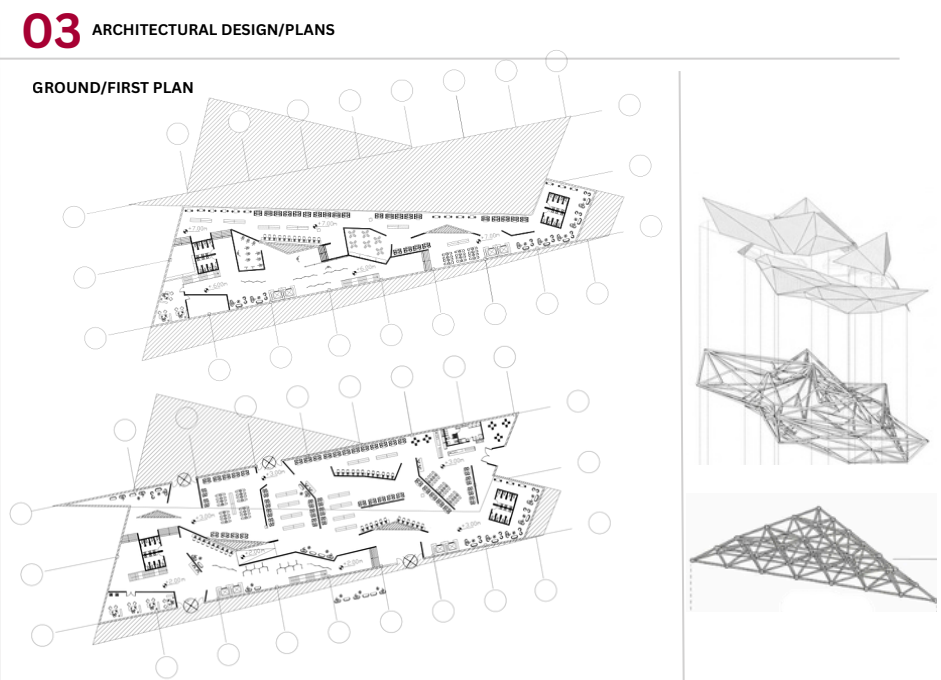

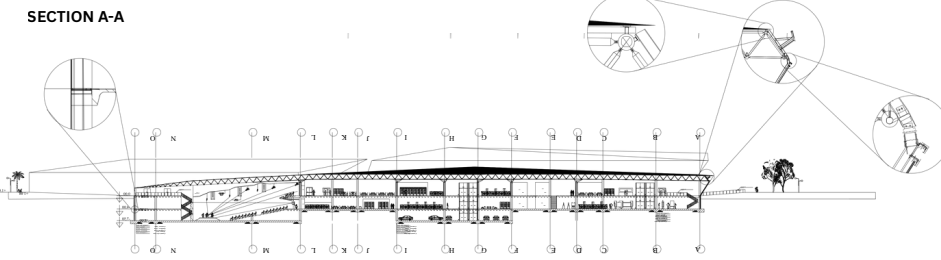

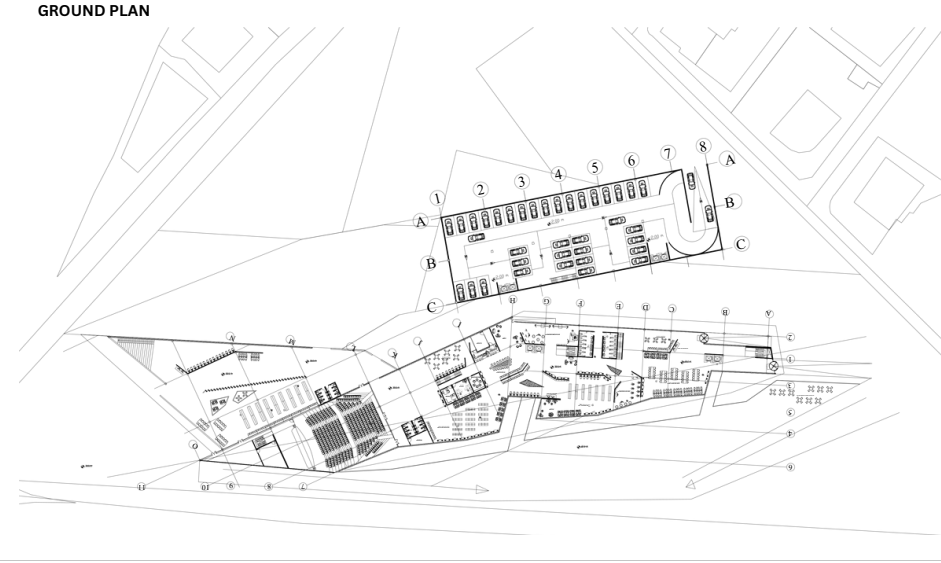

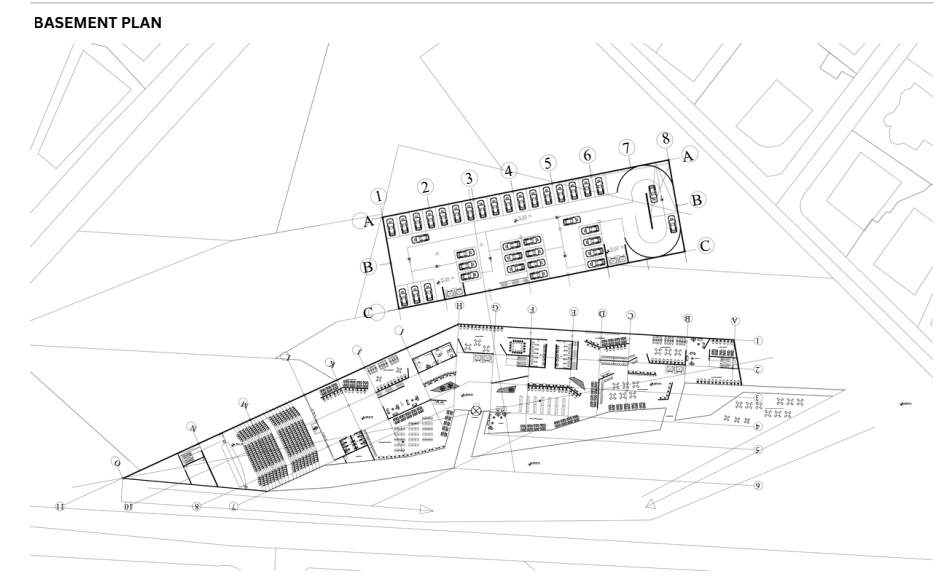

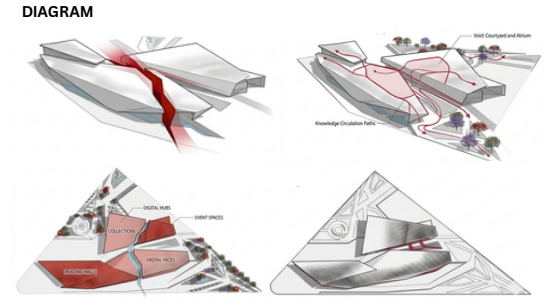

DEMOGRAPHY

Population in Lefkosa: 75,467	Male Percentage: 53.9%
Median Age in Lefkosa: 46.1	Female Percentage: 46.1%
